

HUSKY FETCH

“THE BORED BUTTON”

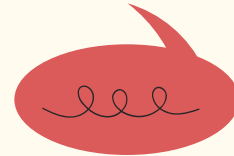

LEON LIEBMANN + HARRY FUNG + MICAH CHANG + MEL STEPPE

**How can we
combat campus
boredom?**

Create a “one-stop” website that will enhance a student’s campus experience and prevent pandemic loneliness.

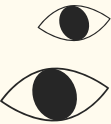

PROBLEM STATEMENT

OUR SOLUTION

“Husky Fetch” is a website that generates a list of events that are happening on campus when the user clicks the fetch button. It generates everything from HFS events to lectures open for auditing.

DEMO

Husky Fetch

Campus events near you

FETCH!
